## **BOSCO DEL SASSETO: a treasure trove of biodiversity**

Ancient trees with great girths, hollow trunks and twisted branches, huge moss-covered rocks adorned by ferns. Birdsongs, and wildflowers blooming in the undergrowth create an alluring, fairy-tale atmosphere.

*"In every walk with nature  
one receives far more than he seeks"*

**John Muir**

The magic of the "enchanted forest" flows through the centuries old trees, the dark volcanic rocks, the vivid greenery, and it is bound to captivate visitors of all ages!
